

About

The Harrisburg Camera Club was founded in 1933 and incorporated in 1977, and is dedicated to promoting the study, understanding, improvement and enjoyment of photography.

We encourage participation by photographers of every skill level from the newest beginner to the most advanced amateurs and working professionals.

- Constructive evaluations of every member's prints and images by experienced photographers/artists.
- Recognition for quality and merit achievement in photography.
- Discount on purchases at local camera shops and picture framing shops
- Newsletter - The Ground Glass.

Welcome

The Harrisburg Camera Club welcomes all photographers from the newest beginner to the most experienced. Our members have had photographs published in local and regional publications as well as regional and national magazines. Members have also taken top awards in local, regional and national photographic contests. All bring with them their knowledge of, and unique approach to, photography. Members are always ready to share their knowledge.

Competitions

The club holds print and digital competitions throughout the year, plus an annual competition at the end of each season to select a print and digital "Image of the Year". The competitions are judged by qualified outside judges who give constructive evaluation and assign images a point value to determine winners. Listening to the judge's critique provides valuable insight to the makeup of prize winning photos as well as a great learning experience.

Club Activities

The club meets on the second Tuesday of each month from September through April. There are no meetings during June - August. Our annual competition and banquet are held in May at one of the area local restaurants. Members also organize many interesting field trips throughout the year.

Programs/Instructional Sessions

Programs are designed to be both entertaining and instructional. They range from hands-on sessions such as mat cutting to slide shows and lectures concerning other technical and esthetic aspects of photography.

Field Trips

Throughout the year, field trips are conducted to many interesting local and regional destinations. These provide an opportunity to share a full day of photographic experiences with other members. Trips are usually scheduled for Saturday or Sunday and generally take all day.

Newsletter

Our award winning newsletter "The Ground Glass" contains information about the people and events which make up our club and what's happening in the world of photography.
